BIOFIZIKA

Chief Editor: YE. YE. FESENKO
Deputy Chief Editor: L. A. BLYUMENFEL'D, G. R. IVANITSKII

EDITORIAL COUNCIL

A. A. BAYEV, D. S. CHERNAVSKII, I. M. GEL'FAND, P. G. KOSTYUK, YU. P. KOZLOV, A. A. KRASNOVSKII, L. A. PIRUZYAN, V. P. SKULACHEV, B. A. TASHMUKHAMEDOV

EDITORIAL BOARD

G. N. BERESTOVSKII, L. P. KAYUSHIN, S. V. KONEV, S. A. KROLENKO, V. V. LEDNEV, F. F. LITVIN, M. A. OSTROVSKII, A. B. RUBIN, S. E. SHNOL', YU. A. VLADIMIROV
Secretary: N. G. YESIPOVA

This journal is a cover-to-cover translation of the Russian journal *Biofizika* (Russian original copyright: Nauka, 90 Profsoyuznaya ul., Moscow 117864)
Published 6 issues/annum in January, March, May, July, September and November.

Translation Editor: K. B. DAWSON, M.Sc., Ph.D.

Translator: A. CROZY

Russian Translation Consultant: R. C. GLASS

Publishing and Advertising Offices

VOLUME CONTENTS

1992 VOLUME 37 NUMBER 1

Molecular Biophysics

V. G. Tumanyan, V. N. Bogulenkova, N. G. Yesipova and F. Eisenhaber — 1 — Conformation of the triple helix of collagen as a function of its primary structure

Ye. L. Yeliseyeva and A. K. Kukushkin — 5 — Calculation of the kinetics of fluorescence for a model of the photosynthetic unit of photosystem II allowing for vibrations of the lattice

V. G. Artyukhov, O. V. Basharina and F. A. Filiptsov — 8 — Activation of superoxide dismutase molecules on exposure to ultraviolet radiation

V. Yu. Titov, Yu. M. Petrenko and V. A. Petrov — 12 — Calorimetric study of the oxidation of ascorbic acid by horse radish peroxidase

A. N. Veselkov, D. Davies, L. N. Djimant and H. Parkes — 17 — Investigation of the interaction of proflavine with the deoxytetraribonucleoside triphosphate 5′-d (ApG pCpT) in aqueous solution using one- and two-dimensional ^1H nuclear magnetic resonance spectroscopy

S. N. Shcherbo, S. V. Patsayeva, V. I. Yuzhakov and M. F. Turchinskii — 27 — Spectral and photochemical properties of some photobiotins

V. N. Umetskaya — 32 — Photochemical conversion on exposure to ultraviolet radiation of the molecules of the dye Hoechst 33258 in complex with the DNA of cell nuclei

D. R. Monaselidze, Ya. L. Kalandadze, Z. I. Chanchalashvili and G. V. Madzhagaladze — 36 — Thermal properties of chromatin *in vivo* on interaction with *cis*-$[Pt(GuO)_2(GuOH)_2]$

G. M. Mrevlishvili, I. A. Andriashvili, D. G. Tushishvili, T. D. Mdzinarashvili, L. T. Tsianadze, N. O. Metreveli and L. G. Kalandarishvili — 40 — Microcalorimetric study of the bacteriophage *DDVI*

B. A. Tikunov — 44 — Charge characteristics of two states of the actomyosin complex

T. A. Ruzgas, V. I. Razumas and Yu. Yu. Kulis — 46 — Ellipsometric study of antigen–antibody interactions in the solid–solution interphase region

F. Eisenhaber, A. A. Adzhubei, F. A. Eisenmenger and N. G. Yesipova — 51 — Hydration of the left helix of the poly-L-proline II type. Investigation by the Monte Carlo method

N. G. Yesipova, F. Eisenhaber, F. A. Eisenmenger and V. G. Tumanyan — 56 — New interpretation of the thermodynamic role of the imino acids in collagen. Resolution of the thermodynamic paradox

Cell Biophysics

V. M. Aristarkhov — 61 — Slow photoprocesses in a liposome dispersion

L. S. Brown, A. B. Druzhko and S. K. Chammorovskii — 66 — Light adaptation of a bacteriorhodopsin analogue with 4-keto-retinal

Ye. P. Lukashev, A. B. Druzhko and A. A. Kononenko — 72 — Electro-induced bathochromic shift of the absorption band of 4-keto-bacteriorhodopsin in gelatine-based films

L. N. Bezdetnaya, G. A. Abyev, A. I. Ismailov, V. I. Agaronov and A. Ya. Potapenko — 76 — Inhibition of photohaemolysis sensitized by psoralen by a bidents extract (*Bidenta tripartita)*

A. V. Polev, L. N. Bezdetnaya, S. N. Akhtyamov, V. V. Vladimirov and A. Ya. Potapenko — 79 — Dark and photosensitized haemolysis of erythrocytes in the presence of dithranol

B. V. Sakharov and V. Ya. Volkov — 83 — Paramagnetic doping study of the reversibility of membrane damage on freezing

Biophysics of Complex Systems

G. N. Zatsepina, Ye. A. Luk'yanov, S. V. Tul'skii and L. V. Peshkova — 85 — Seasonal changes in the constant human electric field in different age groups

A. M. Khazen — 88 — Origin and evolution of life and reason in terms of information synthesis

O. A. Mornev, A. V. Panfilov and R. R. Aliyev	104	The Fitzhugh–Nagumo system of equations is a gradient system
I. G. Minkevich and A. Yu. Abramychev	107	Dynamics of the age distribution of a culture of micro-organisms with reference to the influence of substrate concentration
A. Yu. Loskutov	114	Possibility of predicting the behaviour of one class of biosystems in a chaotic regime of movement
G. N. Zatsepina, S. V. Yegudina and O. V. Tarnopol'skaya	122	Change in the adaptational capacity and kinetics of adaptation of *T*-lymphocytes to hypotonia in pathological states of the mammalian body
V. I. Arabadzhi	130	Infrasound and biorhythms of the human brain
A. F. Vanin	132	Endothelial relaxation factor of vessels—nitrosyl complex of iron with thiol-containing ligands (hypothesis)
P. V. Zinin	137	Theory of attenuation of sound in the blood and erythrocyte suspensions

1992 VOLUME 37 NUMBER 2

Molecular Biophysics

V. M. Torgashin, Ye. L. Yeliseyeva and A. K. Kukushkin	143	Description of the kinetics of recombination of a radical pair at the bacterial reaction centres with reference to the dynamics of the protein environs
F. K. Zakir'yanov, V. A. Karavayev and A. K. Kukushkin	148	Link between the characteristic times of the transition processes and the activity of the dark processes of photosynthesis
G. V. Lyakhnovich, G. V. Kozhukh, A. A. Sukhodola, A. V. Dorokhin, V. A. Lapina and I. D. Volotovskii	151	Spectral-luminescent properties of native oats phytochrome as part of the polymer matrix
M. G. Petukhov, V. E. Dorofeyev, R. A. Abagyan and A. K. Mazur	154	Total optimization of the conformational energy of oligopeptides using a tunnel algorithm
T. V. Burdzhanadze	158	Thermodynamic substantiation of the water-bridge structure of collagen
A. S. Sukhanov, Ye. G. Sal'man and S. P. Gabuda	164	Molecular mobility and electrete properties of keratin
V. Yu. Chebotarev and A. N. Rekesh	169	Classical and pulsed gel electrophoresis of biopolymers. Theory and applications

Cell Biophysics

S. G. Samoilenko, I. M. Okun', S. L. Aksentsev and S. V. Konev	215	Influence of temperature on the polarity of the annular and bilayer lipid of the synaptic membranes
B. A. Tikunov and S. L. Gamzyan	220	Relationship between the two-stage kinetics of actomyosin Mg^{2+}-ATPase and breaks in the Arrhenius plots
N. V. Kotov, V. V. Miroshnikov and I. D. Yudin	226	Mathematical modelling of the mechanism of motion of the cilium: internal hydrodynamic drive
A. G. Maksina, N. P. Mikaelyan, Yu. A. Knyazev and B. A. Dainyak	231	Study of structural changes in erythrocyte membranes in sugar diabetes using spin-labelled fatty acids
I. G. Minkevich	235	Basic model of a microbial culture as a distributed system

Biophysics of Complex Systems

I. M. Suslov	242	Computer model of a "sense of humour". I. General algorithm
I. M. Suslov	249	Computer model of a "sense of humour". II. Realization in neuronal networks
A. V. Anisimov and A. G. Yegorov	259	Evaluation of the speed of an axial flow of water along the symplast of a chain of plant cells from the value of the quasidiffusion coefficient
V. A. Glotov	265	The Roux rules and the configurations of microvascular bifurcations
V.A. Tauraitis, S. I. Shishporenok, L. A. Grubina, M. V. Sakzhevskaya, I. F. Gurinovich, G. P. Gurinovich and A. A. Matulis	269	Evaluation of the possibility of using the photodynamic effect in rheumatology

A. I. Veinger	275	Generation of a nerve impulse as a plasma process. I. Voltage–current characteristic of membrane contact
A. I. Veinger	279	Generation of a nerve impulse as a plasma process. II. Stability of the voltage–current characteristic of the membrane contact
M. N. Stolyarov and D. S. Chernavskii	284	Variability of biological systems
A. K. Vidybida	294	Selectivity and sensitivity of a cooperative system in the presence of thermal noise
V. V. Obraztsov, A. S. Kabal'nov, A. N. Sklifas and K. N. Makarov	298	A new model describing the elimination of fluorocarbons from the body: dissolution of fluorocarbons in the lipid components of the blood
		Letters to the Editor
V. I. Dreval'	303	Influence of ionizing radiations on the proteins of plasma membranes
Ye. P. Khizhnyak, T. V. Tyazhelova and A. A. Nikonov	305	Heating of the antenna of the insect on exposure to electromagnetic waves of the mm range
L. K. Stus' and Ye. D. Rozanova	307	Fluctuations of the forms of haemoglobin during storage of blood
O. I. Zorich and M. V. Orlova	309	Biotics of human blood after exposure to microcurrents
V. A. Tverdislov, M. R. Kuznetsova and L. A. Yakovenko	312	Chiral selectivity at a non-equilibrium solution/air interface
	314	Annotations of papers deposited in VINITI

1992 VOLUME 37 NUMBER 3

S. E. Shnol'	319	Proceedings of the Second All-Union Symposium "Cosmophysical Fluctuations in Biological and Physical-Chemical Systems"
L. P. Agulova	321	Problems and prospects in the study of cosmos–biosphere links
B. L. Berry	328	Basic systems of geosphere–biospheric cycles and the prediction of natural conditions
N. G. Kleimenova and V. A. Troitskaya	342	Geomagnetic pulsations as one of the ecological factors of the environment
Yu. R. Rivin	352	Many-year variations in the electromagnetic radiation of the Sun as a means for detecting the impact of solar activity on the Earth's biosphere
L. I. Miroshnichenko	364	Cyclic variations and sporadic fluctuations of solar cosmic radiation
S. E. Shnol', N. V. Udal'tsova, V. A. Kolombet, V. A. Namiot and N. B. Bodrova	378	Patterns in the discrete distributions of the results of measurements (cosmophysical aspects)
V. A. Namiot	399	Independent events in the quantum theory (quantum mechanics and dynamic chaos)
V. A. Kolombet	402	Macroscopic fluctuations, masses of elementary particles and discrete space–time
B. M. Vladimirskii	410	Solar activity and problems of precise measurements
L. N. Petrova	418	Seismogravitational fluctuations of the Earth and the possible mechanism of their formation
I. P. Zaretskaya, G. V. Lobasenko, V. A. Rumyantsev, N. G. Ptitsyna and M. I. Tyasto	426	Variability of river runoff in solar activity cycles
V. A. Raibshtein, V. I. Voinov, V. E. Kudryashev and V. I. Chepasov	433	Relationship between medical indices and fluctuations in natural gravitational fields
G. I. Bortnikova	442	Influence of the character of tidal changes in the force of gravity on the periodicity of the functional activity of the suprarenal cortex and the thyroid gland of dogs
R. A. Gulyayev and T. L. Gulyayeva	450	Possible non-gravitational mechanism of the action of the Moon on biological processes
A. I. Khlystov, V. P. Dolgachev and L. M. Domozhilova	455	Barycentric movement of the Sun and solar–terrestrial relations
L. N. Novikova and T. N. Soboleva	461	Longitudinal response of the subauroral and near-equator ionosphere to the resonance effect of the interplanetary magnetic field

L. Ya. Glybin	466	Cosmophysical aspects of intradiurnal cyclicity, concept of the temporal organization of the life of human society
M. Sh. Zil'berman	473	Influence of geomagnetic activity on the density of true predictions in mass numerical lotteries
A. V. Shabel'nikov	479	Impact of cosmophysical factors on the climate and biosphere of the Earth
Ye. N. Avdonina and V. B. Luk'yanov	483	Variations in geo-helio-cosmophysical characteristics and scintillation methods of recording radioactivity
I. V. Dmitriyeva and Ye. P. Zaborova	494	Aspects of the interaction of solar activity and natural processes
D. I. Ponyavin	499	Nature of seasonal and annual variations in geomagnetic activity
V. N. Bingi	502	Biomagnetic correlations and the hypothesis of current states of a proton in water
N. Yu. Lazareva and V. N. Bingi	506	Correlation of the impact of imaginary solutions and solar activity
V. A. Dergachev	509	Fluctuations in the content of radiocarbon in samples of known age
E. A. Kamenir and A. K. Kirillov	517	Analysis of the influence of solar activity on the natural electric field and the productivity of seeds of cereal crop

1992 VOLUME 37 NUMBER 4

A. A. Putilov	527	Non-uniform distribution of historical events within the eleven-year solar cycle
S. Yu. Zinchenko and V. I. Danilov	535	Sensitivity of biological objects to the action of the geomagnetic field
U. Kh. Kopvillem ✠, R. Z. Sharipov, A. M. Zapol'skii and N. A. Aizdaicher	541	A biological detector of weak cosmophysical fields
V. G. Sidyakin	545	Influence of fluctuations of solar activity on biological systems
N. A. Temur'yants, V. B. Makeyev and V. I. Malygina	551	Influence of weak variable magnetic fields of extremely low frequencies on the infra-dian rhythmics of the rat sympatho-adrenal system
N. V. Klochek, L. E. Palamarchuk, L. A. Plyusnina and M. V. Nikonova	555	Cosmic action of unknown nature
V. M. Shekhtman and V. I. Chepasov	561	Temporal analysis of the calls on the psychiatric first aid team
A. N. Morozov and S. O. Turchaninov	567	Macroscopic fluctuations in the diffusion coefficient and low frequency noise in electrolytes
V. S. Martynyuk	569	The synchronizing effect of very low frequency magnetic fields on biological systems
I. M. Dmitriyevskii	575	Cosmophysical correlations in animate and inanimate nature as a manifestation of weak influences
N. A. Agadzhanyan and I. G. Vlasova	581	Influence of a very low frequency magnetic field on the rhythmics of nerve cells and their resistance to hypoxia
A. E. Shem'i-zade	591	Transformation of a pulse of solar-geomagnetic activity to perturbations of the radon and aero-ion fields of the planet
N. I. Moiseyeva	601	Cosmophysical fluctuations and the development of the human embryo
N. B. Kacergiene, R. V. Bernickaite and N. K. Dailidiene	607	Geocosmic factors in the adaptation of intracellular energetics in the pathology of pregnant women, parturients and children
T. P. Ryabykh and N. V. Bodrova	613	Correlation of the probability of onset of breast cancer with solar activity
T. P. Ryabykh and L. G. Mansurova ✠	619	Link between the sectoral structure of the interplanetary magnetic field and the haematological indices in the normal state and during a tumour process
S. V. Petrichuk, A. A. Gaitinova, V. M. Shishchenko and R. P. Nartsissov	623	Modulation of the energy exchange of lymphocytes in the child by natural physical factors
O. D. Volchek	631	Possible influence of the parameters of the gravitational field on indices of functional asymmetry of the brain
V. A. Gusev, Ye. V. Yevdokimov and N. I. Neigel'	635	Deviations from a Poisson distribution in a series of identical *E.coli* culture samples as a consequence of the action of correlating factors of exo- and endogenous nature
R. D. Govorun, V. I. Danilov, V. M. Fomicheva, N. A. Belyavskaya and S. Yu. Zinchenko	639	Influence of fluctuations of the geomagnetic field and its screening on the early phases of the development of higher plants
V. M. Fomicheva, R. D. Govorun and V. I. Danilov	645	Proliferative activity and cell reproduction in the root meristems of the pea, lentil and flax in the conditions of screening the geomagnetic field

V. M. Fomicheva, V. A. Zaslavskii, R. D. Govorun and V. I. Danilov — 649 — Dynamics of RNA and protein synthesis in the cells of the root meristem of the pea, lentil and flax

N. A. Belyavskaya, V. M. Fomicheva, R. D. Govorun and V. I. Danilov — 657 — Structural-functional organization of the meristem cells of pea, lentil and flax roots in conditions of screening the geomagnetic field

A. S. Sapogov — 667 — Non-reproducibility of magnetobiological experiments

A. Ye. Kuznetsov — 671 — Synchronizing of the biosynthetic activity of microbial producers by rhythms of cosmogeophysical origin

E. Ye. Dubov ✠ and T. P. Khromova — 683 — Indices of solar and geomagnetic activity

M. M. Gorshkov — 703 — Planets, the Sun and the biosphere

N. A. Temur'yants and Ye. Yu. Grabovskaya — 715 — Reaction of rats with various constitutional features to the action of weak variable magnetic fields of extremely low frequencies

V. A. Svyatukha — 719 — Treatment of biorhythmological data by a modified cosinor analysis method

Ye. T. Protasevich — 723 — Natural and technogenic electromagnetic background and its influence on the environment

731 — Reviews

1992 VOLUME 37 NUMBER 5

Molecular Biophysics

S. V. Korolev, V. V. Solov'ev and V. G. Tumanyan — 733 — New method in the overall search for the functional regions of DNA using the fractal representation of nucleotide texts

A. V. Voropei, Ye. A. Chernitskii, S. V. Konev, A. P. Krivitskii, S. V. Pinchuk and N. A. Shchukanova — 743 — Chloroform-dependent photoproducts of tryptophan

A. N. Veselkov, D. Davies, L. N. Dymant, H. Parkes and D. Shipp — 747 — Interaction of proflavine with the desoxytetraribonucleoside triphosphate 5′-d(ApGpCpT): thermodynamic analysis based on ^{1}H nuclear magnetic resonance data

G. M. Mrevlishvili, T. D. Mdzinarashvili, N. O. Metreveli and G. R. Kakabadze — 755 — Thermal capacity of DNA in the native and denatured states

V. M. Lobachev, A. A. Makarov, I. A. Adzhubei and N. G. Yesipova — 757 — Investigation of the conformational properties of the C-terminal fragments of H1, H5 histones and β-endorphin using circular dichroism

Ye. M. Mil', S. S. Voronina and V. I. Binyukov — 765 — Titration of SH groups of the H3 histone in DNP of normal animal and tumour cells by a mercury-containing spin label and a DTNB preparation

A. Yu. Leont'ev — 771 — Symmetry of single chain DNA molecules

I. I. Stepuro and N. V. Konovalova — 775 — Non-enzymatic reduction of met-Hb on exposure to NAD$^{\cdot}$ radicals generated in the presence of NAD·H and Fe(II) salts. Anti-oxidant properties of met-Hb

V. R. Fed'kina, T. V. Bronnikova and F. I. Ataullakhanov — 781 — Structure of phasic space of models of the peroxidase–oxidase reaction

A. E. Sitnitskii — 791 — Functional role of local movements of protein in enzymatic catalysis

V. A. Il'in and M. Ya. Karpeiskii — 797 — Conservatism of the residues in the non-polar nuclei of microbial ribonucleases

I. I. Vlasova and S. P. Kuprin — 807 — Study of the binding of substrates and paramagnetic Mn^{2+} ions to phosphoglycerate kinase by saturating the electron spin resonance spectra of spin-labelled protein

V. I. Lobyshev and Z. I. Vishnevskaya — 817 — Aspects of the influence of the ammonium ion on the enzymatic activity of myosin and subfragment-1

J. Malinsky, Y. Magarshak and L. A. Blyumenfeld — 819 — Kinetics of electron transfer in macromolecules

I. I. Vlasova and S. P. Kuprin — 823 — Evaluations of distances in the molecule of yeast phosphoglycerate kinase using the effects of saturation of electron spin resonance spectra at 77 K

Cell Biophysics

R. I. Khalilov and A. N. Tikhonov — 831 — Inhibition of the photochemical activity of the photosystem II of the chloroplasts of higher plants on exposure to ultraviolet radiation

S. V. Konev and A. N. Rudenok — 835 — Role of the conformational mobility of proteins in the work of the electron transport chain of the mitochondria

B. S. Marinov, G. Ye. Bronnikov and S. O. Vinogradova — 839 — Inhibition of mitochondrial ATP-synthetase by redox agents

A. A. Mongin, S. L. Aksentsev, A. A. Rakovich, I. M. Okun', S. V. Konev and S. N. Orlov — 847 — Osmotic regulation of the sodium pump in rat brain synaptosomes

A. G. Fedorchuk, L. M. Skivka, Z. E. Stolyarov, Yu. N. Levchuk and A. V. Mostovaya — 853 — Influence of extremely high frequency low intensity electromagnetic radiation on the cytotoxic activity of human natural killer cells

Biophysics of Complex Systems

R. L. Garifullina, I. R. Abdrakhimova and L. P. Khokhlova — 859 — Spin-label study of the influence of cold hardening and cartoline on the mitochondrial membranes of winter wheat seedlings

I. A. Arshavskii and L. M. Mezhevikina — 865 — Analysis of the causes and mechanisms determining the advent of individual development in animals starting from the zygote (role of the cytoskeleton)

I. A. Arshavskii, A. Ye. Kalevich and V. I. Kefeli — 879 — Analysis of the role of the cytoskeleton of the embryos of plant organisms in the realization of growth and development

Yu. P. Chukova — 889 — Energetic and informational interactions in terms of thermodynamics

G. P. Markov and V. I. Stanko — 895 — Radioactive decay as a source of a low frequency electromagnetic field

G. Ye. Dobretsov and V. A. Petrov — 899 — "I have been lucky with my teachers . . ." (60th birthday of Yu. A. Vladimirov)

1992 VOLUME 37 NUMBER 6

Molecular Biophysics

O. V. Yakovleva, S. N. Dobryakov and L. P. Kayushin — 909 — Exchange parameters in the 4,4-di-2,2,6,6-tetramethyl-4-hydroxypiperidyl-1-oxyl biradical according to the electron spin resonance spectra

O. V. Yakovleva, S. N. Dobryakov and L. P. Kayushin — 913 — Temperature dependence of the exchange frequency and the exchange integral in the 1,3-di-2,2,6,6-tetramethyl-1-oxyl-4-carbopiperidylhydroxyadamantan biradical in dilute iso-octane solution according to the electron spin resonance spectra

E. Sh. Yakutova, A. N. Osipov, O. V. Kostenko, J. Arnhold, K. Arnold and Yu. A. Vladimirov — 919 — Interaction of hypochlorite with oxyhaemoglobin releases catalytically active iron

A. R. Panchenko and K. V. Shaitan — 927 — Possible effects of the dynamic non-orderliness of biological systems on the characteristics of intramolecular mobility determined by Mössbauer spectroscopy

G. M. Pavlov, Ye. V. Korneyeva, N. A. Mikhailova and Ye. P. Anan'eva — 933 — The hydrodynamic and molecular characteristics of fractions of mannane formed by the yeasts *Rhodotorula rubra*

Cell Biophysics

Yu. A. Vladimirov, M. P. Sherstnev and T. K. Azimbayev — 939 — Evaluation of the anti-oxidative and antiradical activities of substances and biological objects using iron-initiated chemiluminescence

V. A. Makarov and K. V. Shaitan — 945 — Weak temperature dependences of the electron transfer rate constant and the parameters of the electron-vibratory transition

A. A. Mongin, S. L. Aksentsev, A. A. Rakovich, S. V. Konev and S. N. Orlov — 951 — Osmotic regulation of furosemide-sensitive transport of K^+ ($^{86}Rb^+$) in rat brain synaptosomes

Ye. S. Losev — 955 — Physical model of the gravitational sedimentation of erythrocytes

V. A. Kuznetsov and I. A. Makalkin — 961 — Bifurcational analysis of a mathematical model of the interaction of cytotoxic lymphocytes with tumour cells. Effect of immunological enhancement of the growth of a tumour and its relationship with other "anomalous" phenomena of onco-immunology

A. V. Rossokhin and Yu. Z. Saakyan — 969 — Study of the dependence of the generation threshold of the nerve impulse on the mode of formation of the input signal on the basis of the Hodgkin–Huxley model

Biophysics of Complex Systems

L. V. Chasovnikova, V. Ye. Formazyuk, A. A. Ryabtseva and V. I. Sergiyenko — 975 — Surface tension of dilute solutions of human lachrymal fluid in the normal state and in different eye pathologies

V. V. Shlygin — 979 — Evaluation of the possibility of modelling biological tissues by a combined system of Fokker–Planck and Gouy–Chapman equations

A. A. Ivlev — 985 — Link between the isotope composition of the carbon of hair and the functional state of man

A. A. Ivlev, N. Yu. Panteleyev and A. A. Glukhov — 989 Variability of some isotope characteristics of carbon in humans

Ye. I. Pal'tsev — 995 Biomechanical invariant of automatized movement

B. I. Prilutskii, V. M. Zatsiorskii and L. N. Petrova — 1001 Mechanical energy expenditure on the movement of man and the anthropomorphic mechanism

E. V. Sergeyev, Ye. F. Aksyuta and O. Ya. Bokser — 1007 Method of evaluating the levels of self-organization of functional biotechnical systems

Yu. S. Kolesov — 1015 Explanation of the plankton paradox

1017 Annotations of papers deposited in VINITI

1021 Reviews
